The Royal Albert Dock is a complex of dock buildings and warehouses in Liverpool, England. Designed by Jesse Hartley and Philip Hardwick, it was opened in 1846, and was the first structure in Britain to be built from cast iron, brick and stone, with no structural wood. As a result, it was the first non-combustible warehouse system in the world. It was known simply as the Albert Dock until 2018 ...

The Great Float is a body of water on the Wirral Peninsula, England, formed from the natural tidal inlet, the Wallasey Pool. It is split into two large docks, East Float and West Float, both part of the Birkenhead Docks complex. The docks run approximately 2 miles (3 km) inland from the River Mersey, dividing the towns of Birkenhead and Wallasey. The Great Float consists of 110 acres (45 ha) of ...
